Didsbury Wins Cup at Drumheller.

Watts' Crew Bring Home Valuable Prizes.

The participation of a rink from Didsbury in the bonspiel at Drumheller last week was productive of remarkable success, and resulted in the winning of some of the best prizes offered. Didsbury was represented by S. G. Watt (skip), J. McCloy (third), D. A. Edwards (second), and L. Sanderman (lead). With splendid support on the part of his crew, Watt won the first in the Edmonton brewing competition the prize for which comprised four complete cut glass water sets. The rink also captured fourth prize in the Newcastle coal competition, consisting of four complete carving sets. The grand aggregate prize of four smoking sets, also fell to them, and as a grand finale, they won the cup in the Edmonton brewing competition, which they will hold for one year.

The Drumheller bonspiel is now recognized as one of the most important in the province, and draws a large number of entries. The success of the Didsbury curlers was consequently almost phenomenal. There were twenty-two rinks taking part in the 'spiel, and our boys won more games than any other competing rink. It was also the only rink that got among the prizes in the two open competitions.

Mr. Watt has been going to Drumheller now for about six years, and he states that each successive trip there only confirms him in the belief that Drumheller is unexcelled for its hospitality.

carrier, complete Garden culti-
vator Tank heater Feed
cooker, 60 gallon Hercules

good sportmanship and general good fellowship. The ice was good and the arrangements for their reception and entertainment could not have been better.

Burnside

Mr. Joe Munson accompanied by his sons Robert and Lloyd and the latter's wife, returned to their home in Vulcan, having sold their farm in this district.

Geo. Metz is in Calgary this week taking treatment from Dr. Messenger. Mr. A. B. Claypool and Rice Jones of Calgary, addressed the U.F.A. meeting last week in the interests of the Live Stock Pool. Both gave interesting talks which were attentively listened to by the large gathering.

Mr. and Mrs. Fred Boulton are spending the week in Calgary, the former as a delegate from Burnside U.F.A. to the annual convention which is in session there.

We are sorry to report that Donald McCulloch, son of Mr. and Mrs. Wm. McCulloch, had the misfortune to break his leg while sleighriding on the hill at Jutland school. The bone which was broken in three places was set by Dr. Clark and the small sufferer is doing as well as can be expected.

About fifty friends and neighbors gathered at the home of Mr. and Mrs. Allie Dawson on Tuesday, evening last, and spent a social evening. After lunch Mr. Hanlan Walsh made a short speech and presented Mr. and Mrs. Dawson on behalf of the assembly with a well filled purse as a memento of their stay in our district. Both will be much missed in the various circles in which they have always taken an active part. We wish them good luck in their new home.

The Lone Pine Women's Institute met at the home of Mrs. Earl Gilchrist on Thursday, January 14th. Miss Forrester gave a paper on "Education and Better Schools," and a discussion on this topic occupied most of the afternoon. The next meeting will be held at Mrs. Fred Boulton's on the second Thursday in February.

JUTLAND W.C.T.U. MEETING

The Jutland W.C.T.U. was held at the home of Mrs. Ellis Barnes, on January 15th, there was a good attendance of about thirty-five. The meeting was honored with the presence of Mrs. H. Reiber, president of Didsbury local, and Miss McCorkindale, a visitor from Australia; also honored with Rev. Mr. and Mrs. Ropple, minister of the Ev. church in Didsbury.

The meeting was opened by our own vice president, Mrs. H. McLean and after the usual business Continued on page 5

Miss Alice Collins of Calgary was a week-end visitor at Mrs. Leadbetter's.

American Road Adopts Radio

Follows the Lead of the Canadian National in Broadcasting

Following the lead of the Canadian National Railways which was the first transportation company in the world to adopt radio as a means of strengthening its relations with the public and of bringing its employees into closer contact with its officers and executives, the Illinois Central system, one of the most important lines in the United States, operating from Chicago to gulf ports and serving considerable territory, has now added radio to its activities, taking over WGES at Chicago, operated by the Coyne Electrical School from the Baldwin Plaza Building, and broadcasting on a wave length of 250 metres.

BARRE, SON OF KAZAN

James Oliver Curwood
A LOVE EPIC OF THE FAR NORTH

Copyright, 1917, by Doubleday, Page & Co.

"BARRE, SON OF KAZAN," a Vitaphone Picture, With Wolf, the War Dog, is an Adaptation of This Story

SYNOPSIS

For months, Barre, the wolf-dog, carried on a ceaseless search for Nepeese, the Indian girl who had been his best friend. Over all the old trails and by the familiar pool he searched, for he well knew that something had gone out of his life. He did not know that Nepeese, in escaping the unwelcome attentions of McTaggart, the brutal factor, had cast herself to the bottom of a deep abyss.

CHAPTER XXIV.—Continued

At the thresholds of the cabins he sniffed; outside of the tepees he circled close, gathering the wind; the canoes he watched with eyes in which there was a hopeful gleam. Once he thought the wind brought him the scent of Nepeese, and all at once his legs grew weak under his body, and his heart seemed to stop beating. It was only for a moment or two. She came out of the tepee—an Indian girl with her hands full of willow-work—and Barre slunk away unseen.

It was almost December when Lerue, a halfbreed from Lac Bain, saw Barre's footprints in freshly fallen snow, and a little later caught a flash of him in the bush.

"Mon Dieu, I tell you his feet are as big as my hand, and he is as black as a raven's wing with the sun on it!" he exclaimed in the Company's store at Lac Bain. "A fox? No! He is half as big as a bear. A wolf—ou! And black as the devil, M'sieu."

McTaggart was one of those who heard. He was putting his signature in ink to a letter he had written to the Company when Lerue's words came to him. His hand stopped so suddenly that a drop of ink spattered on the letter. Through him there ran a curious shiver as he looked over at the halfbreed. Just then Marie came in. McTaggart had brought her back from her tribe. Her big, dark

eyes had a sick look in them, and some of her wild beauty had gone since a year ago.

"He was like—that!" Lerue was saying, with a snap of his fingers. He saw Marie, and stopped.

"Black, you say?" McTaggart said carelessly, without lifting his eyes from his writing. "Did he not bear some dog mark?"

Lerue shrugged his shoulders. "He was gone like the wind, M'sieu. But he was a wolf."

"His hand stopped so suddenly that a drop of ink spattered on the letter."

With scarcely a sound that the others could hear Marie had whispered into the Factor's ear, and folding his letter, McTaggart rose quickly and left the store. He was gone an hour. Lerue and the others were puzzled. It was not often that Marie came into the store; it was not often that they saw her at all. She remained hidden in the Factor's log house, and each time that he saw her Lerue thought that her face was a little thinner than the last, and her eyes bigger and hungrier looking. In his own heart there was a great yearning. Many a night he passed the little window beyond which he knew that she was sleeping; often he looked to catch a glimpse of her pale face, and he lived in the one happiness of knowing that Marie understood, and that into her eyes there came for an instant a different light when their glances met. No one else knew. The secret lay between them—and patiently Lerue waited and watched. "Someday," he kept saying to himself—"Someday"—and that was all. The one word carried a world of meaning and of hope. When that day came he would take Marie straight to the Mission over at Fort Churchill, and they would be married. It was a dream that made the long days and the longer nights on the trap-line patiently endured. Now they were both slaves to the envying Power. But someday—

CHAPTER XXV.

The trap-line of Pierre Eustach ran thirty miles straight west of Lac Bain. It was not as long a line as Pierrot's had been, but it was like a main artery running through the heart of a rich fur country. It had belonged to Pierre Eustach's father, and his grandfather, and his great-grandfather, and beyond that it reached, Pierre averred, back to the very pulse of the finest blood in France. The books at

Children's Colds

Are best treated externally. Check them overnight without "dosing" by rubbing Vicks over throat and chest at bedtime.

VICKS
VAPOR

McTaggart's post went back only as far as the great-grandfather end of it, the older evidence of ownership being at Churchill. It was the finest game country between Reindeer Lake and the Barren Lands. It was in December that Barre came to it.

Again he was travelling southward in a slow and wandering fashion, seeking food in the deep snows. The Kittiwake Kestrel, or Great Storm, had come earlier than usual this winter, and for a week after it, scarcely a hoof or claw was moving. Barre, unlike the other creatures, did not bury himself in the snow and wait for the skies to clear and crust to form. He was big, and powerful, and restless. Less than two years old, he weighed a good eighty pounds. His pads were broad and wolfish. His chest and shoulders were like a Malamute's, heavy and yet muscled for speed. He was wider between the eyes than the wolf-breed husky, and his eyes were larger, and entirely clear of the Wut-tol, or bloom-film, that marks the wolf and also to an extent the husky. His jaws were like Kazan's, perhaps even more powerful. Through all that week of the Big Storm he travelled without food. There were four days of snow, with driving blizzards and fierce winds, and after that three days of intense cold in which every living creature kept to its warm dug-out in the snow. Even the birds had burrowed themselves in. One might have walked on the backs of caribou and moose and not have guessed it. Barre sheltered himself during the worst of the storm but did not allow the snow to gather over him.

Every trapper from Hudson's Bay to the country of the Athabasca knew that after the Big Storm the fished fur animals would be seeking food, and that traps and deadfalls properly set and baited stood the biggest chance of the year of being filled. Some of them set out over their trap-lines on the sixth day; some on the seventh, and others on the eighth. It was on the seventh day that Bush McTaggart started over Pierre Eustach's line, which was now his own for the season. It took him two days to uncover the traps, dig the snow from them, rebuild the fallen "trap-houses," and re-arrange the baits. On the third day he was back at Lac Bain.

It was on this day that Barre came to the cabin at the far end of McTaggart's line. McTaggart's trail was fresh in the snow about the cabin, and the instant Barre sniffed of it every drop of blood in his body seemed to leap suddenly with a strange excitement. It took perhaps half a minute for the scent that filled his nostrils to associate itself with what had gone before, and at the end of that half-minute there rumbled in Barre's chest a deep and sullen growl. For many minutes after that he stood like

a black rock in the snow, watching the cabin. Then slowly he began circling about it, drawing nearer and nearer, until at last he was sniffing at the threshold. No sound or smell of life came from inside, but he could smell the old smell of McTaggart. Then he faced the wilderness—the direction in which the trap-line ran back to Lac Bain. He was trembling. His muscles twitched. He whined. Pictures were assembling more and more vividly in his mind—the fight in the cabin, Nepeese, the wild chase through the snow to the chasm's edge—even the memory of that age-old struggle when McTaggart had caught him in the rabbit snare. In his whine there was a great yearning, almost expectation.

Slowly he followed the trail and a quarter of a mile from the cabin struck the first trap on the line. Hunger had caved in his sides until he was like a starved wolf. In the first trap-house McTaggart had placed as bait the hindquarter of a snowshoe rabbit. Barre roared in cautiously. He had learned many things on Pierrot's line; he had learned what the snap of a trap meant; he had felt the cruel pain of steel jaws; he knew better than the shrewdest fox what a deadfall would do when the trigger was sprung—and Nepeese herself had taught him that he was never to touch a poison-bait. So he closed his teeth gently in the rabbit flesh and drew it forth as cleverly as McTaggart himself could have done. He visited five traps before dark, and ate the five baits without springing a pan. The sixth was a deadfall. He circled about this until he had beaten a path in the snow. Then he went on into a warm balsam swamp and found himself a bed for the night.

(To be continued)

Corns cannot exist when Holloway's Corn Remover is applied to them, because it goes to the root and kills the growth.

Little Helps For This Week

Be content.—Luke III., 14.

Be thou content; be still before His face, at whose right hand doth reign

Fullness of joy for evermore, Without whom all thy toil is vain. He is thy living spring, thy sun, whose rays,

Make glad with life and light thy dreary days.

Be thou content.

—Paul Gerhardt.

I do not think the road to contentment lies in despising what we have not got. Let us acknowledge all good, all delight that the world holds, and be content without it. But this we can never do but by possessing the one thing—without which I do not merely say we ought to be content, but no one can be content—the Spirit of the Father.—George MacDonald.

The Family Physician.—The good doctor is always worth his fee. But it is not always possible to get a doctor just when you want him. In such cases, common sense suggests the use of reliable home remedies, such as Dr. Thomas' Electric Oil, which is wonderfully effective in easing inflammatory pains and healing cuts, scratches, bruises and sprains. The presence of this remedy in the family medicine chest saves many a fee.

Manitoba Fox Industry

Manitoba as a fox-raising province is coming into the limelight. In Vancouver's first annual fox show, out of ten open entries Winnipeg foxes secured nine first prizes and one second, in addition to four championships and three special trophies.

Your Home Medicine Chest.—Among the standard household remedies that should always be on hand in your home medicine chest, none is more important than Dr. Thomas' Electric Oil. Its manifold usefulness is relieving pain and healing sickness is known by many thousands throughout the land. Always use Dr. Thomas' Electric Oil for relieving rheumatic and sciatica pains, treating sore throats and chest, coughs, burns, scalds, cuts, bruises and sprains.

Mineral Production in B.C.

Mineral production in British Columbia for 1925 is estimated at \$62,000,000, an increase of 30 per cent. over 1924, by the British Columbia chamber of mines. The largest individual metal production is in lead, which ran up to nearly \$19,000,000. Zinc was practically 100 per cent. more in 1925, being valued at about \$8,500,000. More than \$2,500,000 in dividends was paid by British Columbia mines during the year.

Minard's Liniment relieves headaches

PEPS

At this season every-body needs the Peps breatheable tablets to ward off cold and chill dangers.

As Peps dissolve in the mouth, their rich medicinal fumes carry soothing and healing benefits direct into chest and lungs.

Inflammation and soreness in throat on bronchials is quickly allayed by Peps, coughs and colds are nipped in the bud, and the entire breathing system is wonderfully strengthened and fortified. All druggists 25c box.

for COUGHS & COLDS

The distinction of being the first woman barrister of title is likely to fall to Lady Clifton of Leighton-Bromswold, a baroness in her own right.

THOUSANDS OF MOTHERS USE NO OTHER MEDICINE

Baby's Own Tablets Are the Ideal Remedy for Babies and Young Children

Canadian mothers are noted for the care they give their little ones—the health of the baby is most jealously guarded and the mother is always on the lookout for a remedy which is efficient and at the same time absolutely safe. Thousands of mother's have found such a remedy in Baby's Own Tablets and many of them use nothing else for the ailments of their little ones. Among them is Mrs. Howard King, of Truro, N.S., who says:—"I can strongly recommend Baby's Own Tablets to mothers of young children as I know of nothing to equal them for little ones."

Baby's Own Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

Occasionally one meets a man whose mind is so weak that it can't even wander.

What is Doing in the World of Radio

Straight advertising over the radio is selling coffee, paint, women's frocks and a dozen other commodities every day in Seattle.

The only kind of radio receiver found useful in mountainous Switzerland is the many-tubed set. Cheaper sets can't combat the interference offered by mountains and valleys.

In 1899 the first wireless communication was established between England and France. Today regular radio communication is possible not only between England and France, but also between America and Europe.

A Canadian Government radio station opened at Aklavik, within 60 miles of the Arctic Ocean, is in touch with Edmonton, Alberta. This makes the fourth station in a chain to link the Arctic region with civilization.

Following restoration of atrophied oral nerves in two deaf mutes through listening in on three-tube radio sets, Thos. Rodwell, superintendent of the Manitoba School for the Deaf, has ordered several instruments and announces encouraging progress with younger mutes.

Calgary recently witnessed the delayed fall meeting of the Alberta Radio Experimenters' Association, an organization to promote radio research in the province of Alberta. Addresses were given by a number of the members on technical subjects, covering research work done since the last meeting some months before.

Economy In British Army

War Office Demands Use of Iron Stirrups For Cavalry

British cavalry officers have been trembling in their boots because of an economy wave which has swept through the war department.

Spurs have been toned down a bit in their shine and polish, but their jingle has not been interfered with.

Spats in the army came under the ban some weeks ago as unnecessary. Now the nickel stirrups, of which the cavalrymen have been proud, are being replaced by iron stirrups, which are cheaper, and the officers' spurs to be handed out by the department are to be of a steel substitute which will still jingle but not cost the government so much money.

From School Teacher To Great Eminence

A young man who was brought up on a farm in Western Pennsylvania studied diligently and qualified for district school teacher. Further pursuing his studies and teaching, he managed to save up enough money to put him thru medical college. After the Civil War, he began the practice of medicine in the new oil section of Pa., and often rode horse-back thru the woods to reach and relieve those who were seriously ill. He was a student of nature, knew and could easily recognize most of the medicinal plants growing in the woods.

Later, he moved to Buffalo, N.Y., where he launched his favorite remedies, and, in a short time, they were sold by every druggist in the land. Today, the name of this man, Dr. R. V. Pierce, is known throughout the world. His Golden Medical Discovery is the best known blood medicine and tonic. More than fifty million bottles have been sold. If your druggist does not sell the "Discovery," in liquid or tablets, you can obtain a trial pkg. of the tablets by sending 10c to Dr. Pierce's Branch Laboratory in Bridgeburg, Ont.

1243

Two-Piece Costume Approved By Smart Women

Two-piece sports and tailored costumes are things of much more elaboration as far as fabric is concerned, than those worn earlier in the season, which were usually developed in jerseys and crepes. Now the modish attitude is toward making these costumes in crepe satins and velvet, or a combination of both. In the model pictured here satin has been chosen for the new finger-tip length blouse and velvet for the skirt. The velvet was employed to fashion the snug-fitting collar, cuffs and trimming bands. The skirt is joined to a bodice top and has two inverted plaits at the front to add freedom and the latest flared movement. The diagram shows just how to put the dress together, and No. 1243 is in sizes 16, 18 and 20 years (34, 36 and 38 inches bust). Size 18 years (36 bust) requires 4 1/2 yards 36-inch, or 2 1/2 yards 54-inch material. The bodice top of skirt requires 1 1/2 yards 36-inch additional lining, or with ribbon straps over the shoulders 7/8 yard. Price 20 cents.

Our Fashion Book, illustrating the newest and most practical styles, will be of interest to every home dress-maker. Price of the book 10 cents the copy.

Want "Leap Year" Week

German Spinsters Want More Chances To Secure Husband

German spinsters weary of indirect methods of snaring the elusive male are agitating for a recognized "Leap Year" week in each year, during which it shall be their privilege to propose. The idea has been presented to the government marriage bureau and proposes that there be each year not one, but seven days dedicated to St. Catherine, the patroness of unmarried women.

Several spinsters' organizations are backing the proposal.

Officials of the marriage bureau say that when a girl in Germany is 27 years old and unmarried her chance of getting a husband are about one in five. Although the number of marriages has been restored to pre-war figures, it is notable that those between middle aged men and comparatively young girls are more and more frequent.

Queen Alexandra Memorial

A fund of about \$50,000 is to be subscribed for a national memorial to the late Dowager Queen Alexandra. The money will be used to assist Queen Victoria's Jubilee Institute of Nurses.

Manitoba Government Phones

The Manitoba Government telephone system completed its fiscal year with a profit of \$150,000, a surplus of nearly \$85,000 over the estimated revenue.

Prosperity For Canada

No Doubt That Corner of Depression Has Been Turned

For some time past business men and economic observers in Canada have been saying that trade is on the up grade and that the corner of depression since the war has been turned. Now there seems no doubt of it. Figures to the end of November have been issued at Ottawa and they show that Canadian exports are sixty million dollars more than in the previous year, and about four hundred and seventy millions more than in 1922. There is this year a favorable balance of trade of \$346,000,000 in exports over imports. That is a tremendous contribution to national prosperity and means a substantial amount in individual comfort and happiness.

Much of this is due to the big field crops, the second largest on record, and, of course, when the farmers of the west have money, it follows that industry in general is going to boom. The real results of the fine harvest will be felt in the manufacturing section next year.

Burmese Ex-Queen Was Sinister Figure

Said To Be Influence Behind Mandalay Massacre in 1879

A romantic and sinister figure was removed from Burmese life when, at her bungalow at Rangoon, the ex-Queen, Supayalat, widow of King Theebaw, died from heart failure at the age of 67.

Upon the death of King Mindoon in 1878, one of his wives schemed successfully for her daughter, Supayalat, to marry Theebaw. There followed in 1879 the massacre of Mandalay, in which the late King's sons, their wives and children and others were murdered. Supayalat was alleged to be the influence behind all Theebaw's acts then and in the chaotic reign which followed.

Avoided Expense Of Going To Hospital

That's Why Madame L. Genoud Recommends Dodd's Kidney Pills

Alberta Lady Relieved Of Anaemia, Gastritis of the Stomach and Neurasthenia.

Charron, Alta.—(Special).—"I have suffered for twenty years with bad kidneys. Have been treated from time to time for anaemia, gastritis of the stomach and neurasthenia and no doctor succeeded in relieving me. I arrived at the most critical period of my life and felt very sick. A good neighbor told me about Dodd's Kidney Pills. In eight days I was on my feet again, avoiding the expense of going to hospital. I can recommend your marvellous pills to all persons who suffer like I did."

This statement was sent to us by Mme. L. Genoud, a well-known resident of this place.

Dodd's Kidney Pills strengthen weak kidneys and put them in shape to do their full work of draining the impurities out of the blood.

Dodd's Kidney Pills can be obtained everywhere or The Dodd's Medicine Co., Ltd., Toronto.

Must Trade Mark Goods

Turkey Takes Steps To Safeguard Foreign Trade

After three months, all goods produced in Turkey must bear registered trade marks. This order is the outgrowth of a situation that has been detrimental to the country's trade. It appears that Greek and Armenian refugees living in Greece and Bulgaria have been sending to foreign markets silks, furs and rabbits of an inferior quality, but marked "Turkish."

Forget the good you have done to others and the evil they have done to you if you would be happy.

More tin is produced in Alaska than in all of the rest of the United States combined.

FROST BITES

Prevent complications by rubbing the affected parts with Minard's. It draws out inflammation, soothes and heals.

OUR CROSSWORD PUZZLE

- 32—Measure of distance.
- 34—After a while.
- 36—Splendor.
- 38—Point of compass.
- 40—An acid fruit.
- 42—The Cape oak.
- 44—Pastry dess rt.
- 46—Dealt out sparingly.
- 48—Satisfy the appetite.
- 50—Rip.
- 52—Vehicle.
- 54—Human beings.
- 56—Exist.
- 58—Negative.

Answer to Last Week's Puzzle

Saskatchewan Hog Pool

Will Send Delegation to Europe to Study Bacon Industry

Offices for the proposed Saskatchewan Hog Pool have been opened in Saskatoon. Meetings are being held at various points throughout the province and volunteer organizers are now in the field. A fund is being supported by the Farmers' Union to send a delegation to Great Britain, Ireland and Denmark to study the bacon industry there.

Perhaps, suggests Ignatius Bin, the reason the seventh day was made for rest was because seven days of solid labor would have made one weak.

Lots of people spend the last half of their lives trying to forget what they learned the first half.

The Island of Yap, which has suffered from a severe storm, is by far the most important cable station in the Pacific. It has a branch of the American Pacific cable to the Philippines, and has branch lines radiating to Japan, to Shanghai and to the Dutch East Indies.

Colds Are Not Necessary Evils

Observance of One Fundamental Rule of Health Protects Against Them

Whether one catches cold easily is largely a question of physical condition. If the general vitality is low, resistance to disease is weak and at such a time a cold is easy to contract and difficult to check.

Constipation is frequently the cause of such a state of health, with its attendant listlessness, biliousness, headaches and a general lack of vitality. Poisons from the waste matter that remains behind after improper, irregular bowel elimination are picked up by the blood and carried to every part of the body. They weaken your resistance to disease.

Thousands of people who have suffered from self-poisoning in this way have found that Nujol, the internal lubricant makes bowel elimination sure and easy.

Nujol softens the waste matter and permits thorough and regular elimination without overtaxing the intestinal muscles. Nujol can be taken for any length of time with no ill effects.

If you take cold easily, ask your druggist for Nujol to-day—and remember, look for the name "Nujol" in red on both bottle and package.

EVANGELICAL NOTES

Church Services
Sunday
 10.30 a.m.—Morning worship.
 11.30 a.m.—Bible School.
 7.30 p.m.—Evening Worship.

Thursday
 7.15 p.m.—Junior League of Christian Endeavour. Study of Catechism, etc.
 8.00 p.m.—Praise and Prayer Service
 H. E. Roppel, pastor

Sure it pays, in a thousand ways.

"The Christian Champion," based on Heb. 12:1 and Jas. 4:7 is the pastor's fourth sermon subject in his present series on "The Christian Life." A very fine audience sat with wrapped attention last Sunday evening listening to the message on "Why I am a Christian." We look for even a larger audience next Sunday.

The Tuxis and Trail Ranger Boys of Didsbury are working hard at present preparing a musical and devotional program to be given in the Ev. church on Sunday evening January 31st. This program will take the form of a "Father and Son" service and the writer guarantees it will be a rare treat to all in attendance.

Remember the 1st of February is the date set for the beginning of our Evangelistic campaign and we're hoping and praying for a real revival. "Let It Begin in Me" should be the earnest prayer of every member and friend of the church.

The pastor, Rev. Roppel, has just received a new package of scripture text calendars for 1926. All who ordered one may now call for same, and others desiring one may do likewise.

Mr. Orlando Hehn said goodbye on Tuesday to his relatives and friends here as he set sail on the noon train bound for North Western College, Naperville, Ill. He will be much missed here, but many are the good wishes that follow him in his noble undertaking to prepare himself for the Christian ministry. Last Tuesday the Ev. League spent a social evening at the parsonage in his honor. He was accompanied part way on his trip by his mother, who went to visit at the home of her daughter, Rev. and Mrs. W. Miller, Pennant, Sask.

Miscellaneous

FOR SALE
 Purebred Shorthorn bull with papers, 3 yrs. old, T.B. tested. Bred by Duncan Marshall. Apply F. W. Leeson, phone 211-3p2

LOST
 A white sow, wgt. about 250 lbs., strayed from the N. 1-2 sec. 13-31-18, W. 4. Last seen travelling west at Community Hall. Reward offered. 2-3 C. R. Liesemer, Phone 513.

A BANK UNDER WESTERN ORGANIZATION

Main Office, Winnipeg

FOR nearly 50 years the Bank of Montreal has maintained offices in Western Canada, ready to accept monies on deposit and loan these funds to farmers, merchants, manufacturers and business men generally, upon terms consistent with sound banking and the proper custody of its depositors' funds.

Since the first office was established in Winnipeg in 1878 the Bank has spread throughout the Prairie Provinces until today it has 161 offices in Manitoba, Saskatchewan and Alberta. An Assistant General Manager is resident in Winnipeg and Provincial Superintendents are located at Winnipeg, Regina, and Calgary, ready to give prompt and efficient service to the people of the West.

Small accounts are welcome and are accorded the same service as that given to large amounts.

Customers of the Bank have all the advantages resulting from Western organization combined with the strength and facilities of a nation-wide banking institution having world-wide connections.

Came Across Continent in Motor Boat

Completing all but the last lap of their trip from Los Angeles to New York—across the whole continent—in an eighteen foot long motor boat, two Americans, John Edwin Hoag and Frank S. Wilton, not to mention Spy-Wapato, their dog, arrived recently in Montreal and stayed for a day or two before proceeding to New York.

The entire distance was covered by water with the exception of one portage of 400 miles from Celilo Falls, Washington to Fort Benton, Montana. Their boat the "Transcontinental" is an 18-foot craft, 5 feet abeam, and powered with two four horse power Evinrude outboard motors. They left Astoria, Oregon, May 20, after having their boat shipped up the coast from Los Angeles. The route was via the Columbia River from its mouth to Celilo Falls where the boat was loaded into a box car and sent on 400 miles to Fort Benton where the journey was resumed down the Missouri River for 2,280 miles into the Mississippi to St. Louis, then up the Mississippi to the Illinois River as far as Ottawa, Illinois; through the Illinois and Michigan Canal to Joliet, Illinois, and through the Chicago Drainage Canal into Lake Michigan. From here the voyage was plain sailing to Montreal, where they landed at the Canadian Pacific Pier No. 8, having moored their boat alongside the "Montcalm."

Messrs. Hoag and Wilton followed in reverse direction the course of the early explorers, Columbus, Hendryk Hudson, Champlain, Cartier and La Salle. Their mishaps commenced early when, in the Columbia River they ran afoul of a sunken log which tore the stern out of their boat. After this misadventure, which they finally weathered safely, they had comparatively no bad luck, except for the tornadoes, heavy storms and risky runs down little-known rapids, which might naturally be expected.

Their adventure is unique, the only attempt previously made being about 18 years ago when a similar expedition ended at Bismarck, North Dakota, after traversing the same route. Then, however, the adventurers were so held up by adverse conditions that they were overtaken by winter and their boat was crushed in the ice.

UNRESERVED AUCTION SALE

Having been favored with instructions from Mrs. B. M. ALDEN I will sell by Auction on her farm, 2 miles east, half mile north, and 1 mile east of Didsbury, on

THURSDAY, JANUARY 28
at ten o'clock sharp

W.C.T.U. Reception.

Miss McCorkindale Gives a Splendid Address.

A reception under the auspices of the W.C.T.U. was tendered Miss McCorkindale at the home of Mrs. J. V. Berscht on Thursday afternoon of last week. About fifty women were present to welcome her and profit by hearing her viewpoint.

A few necessary items of business were attended to and we were favored with a dnet by Mrs. Geo. Leisemer and Mrs. Berscht previous to the address.

Miss McCorkindale said, among other truths, "this drink menace has the power to handicap the next race and thus goes beyond the individual. It also has the power to change the image of God in man. Every child has a right to be well born mentally, spiritually and physically, and childhood will not be properly protected until alcohol is ruled out."

In advocating the power of education she said "no boy is ever afraid he will be a drunkard so it will do no good to tell him that. Rather, we must teach them that alcohol even in small quantities kills the will-power of the individual and chloroforms the conscience."

Her talk was a real inspiration to all. Twelve new members were added to our local union at this gathering, and a delightful social half hour followed with our guest.

Jutland.

Continued from page 1

was finished the three visitors were introduced, all of whom addressed the meeting. Mrs. Reiber spoke of the possibility of smaller locals, while Mrs. Popple spoke feelingly of the work undertaking, but it was left to Miss McCorkindale to give one of the finest addresses the local ever had. The privilege to hear her sincerely could not be doubted and her free and easy style of speaking was listened to with great attention. She took us with her on travels in Australia, Great Britain and also this country, pointing out the evils of the liquor traffic. The meeting was closed and a dainty lunch was enjoyed by all present.

Here and There

Sport conditions are very good in New Brunswick this year. Harold Chadwick operating hunting camps in the province reports that at the end of September catches of speckled trout weighing 18½ lbs. were taken one day while a hunter took out a big game licence September 23rd and three days later had his deer and bear.

The world's most northerly police post, also the most remote of any human habitation, is to be constructed next year for the Royal Canadian Mounted Police at the far end of Ellesmere Island. Building materials and two years' supplies will be cached within easy freighting distance of the point where men will be detailed for patrol duty on the lonely shores of Riel straits.

Miss Isabel Coursier, only nineteen years of age, is the world's woman champion ski jumper. She created a world record at Bevel stoke, B.C. at the age of sixteen in 1922. This winter, taking part in the winter sports at Quebec, Miss Coursier made a jump of 83 feet in the International Intercollegiate Ski contest.

A report from Smith's Falls, Ontario, is to the effect that a train was stopped in order to avoid a collision with an automobile making for the tracks over a crossing. The train was stationary when the automobile struck one of the cars. The occupants of the automobile escaped uninjured.

Tourists on the Canadian Pacific liner Empress of Scotland were at the famous King Solomon quarries, beneath the walls of Jerusalem, on Christmas night. Many of them according to a cable received at C.P.R. head offices, bought gavel, made from the stone of the quarries, with olive wood handles.

use Red Rose Orange Pekoe Tea.

U. S. Farmers In Trouble

Political issues in all countries usually arise from somebody's trouble. The manufacturer initiates and supports a policy of tariff protection because he finds himself in trouble as the result of foreign competition; the farmer demands low tariffs, with a strong preference for absolute freedom in trade, because he is in trouble as a result of having to sell his products cheaply in an open world market, but obliged to buy at high prices in a protected and restricted home market. Other issues are the outcome of racial, religious, or other troubles.

At the present time, as noted in a recent article, the rubber users of the world, and particularly of the United States, are making an issue of the regulations governing the production of crude rubber in the British possessions, and solely because the prevailing high price of crude rubber is giving them trouble. But the rubber issue is piling into insignificance in the United States Congress in the face of the campaign being waged by the farmers across the line and which threatens to drag the tariff, and possibly other issues, into the limelight.

United States farmers are in serious trouble. They have for many years been producing larger crops than are required for home consumption, and, while the size of the surplus is diminishing with growth of U.S. population, the farmers are now in rather desperate straits. They are forced to sell their surplus in foreign markets, and at a price fixed in those highly competitive markets. The result is that the foreign price regulates the domestic price, and, as the foreign price is frequently below the cost of U.S. production, the farmer is in trouble, and especially so as the high protective tariff maintained by the United States compels him to pay high prices for all that he has to buy.

Western Canadian farmers well understand the situation. They have been confronted with exactly the same problem. They have advocated, and still advocate, lower tariffs in order to bring down the cost of production, but they have also learned to appreciate the fact that there is a point below which production costs cannot be brought in this country if a decent standard of living is to be maintained. They, therefore, in recent years, turned their attention more and more to finding a solution of transportation and marketing problems with a view to realizing a higher return from their surplus crops and not be forced to accept any price that might be offered in a demoralized world market as a result of the dumping of enormous quantities of grain on the market in one short period.

Hence in Western Canada there has been created and successfully developed huge co-operative undertakings by the farmers themselves, such as the United Grain Growers, the Saskatchewan Co-operative Elevators, the Grain Pools, Co-operative Creameries, and co-operative marketing associations of various kinds. The position of the Western Canadian farmer has been vastly improved as a result of their own co-operative enterprises, managed by themselves apart from Governments, but, where necessary, with Government assistance in the form of guarantees or loans.

The United States farmers have not shown the same self-reliance and initiative, and today they are demanding that the United States Government shall embark upon a policy of "price-fixing" or its equivalent—some sort of export device to get rid of the farm surplus. They argue that prices are low because all the farm produce in which there is a surplus is sold at European prices. They say let a barrier be put up to maintain a high price in the domestic market, and take a loss, if necessary, on the surplus sold abroad. To this the U. S. Government answers: If the farmers profit on their product, they will produce more; the surplus will grow larger until the loss on the surplus will eat up the domestic profit.

Then there is the proposal that the tariff be reduced by bringing down the level of domestic prices until the farmer can buy at prices in proportion to what he sells. To this proposal the U. S. Government and industry in general object vigorously—they do not want the price level torn down.

The other alternative urged in some quarters is to go about direct restriction of farm production—to get rid of the problem of the surplus by getting rid of the surplus. In other words, and as previously noted in this column, to adopt the same policy in regard to U. S. farm products as has been adopted in certain British possessions in regard to crude rubber production.

It is, however, interesting to Western Canadian farmers to note that Robert Bingham, chairman of the National Council of Farmers' Co-operative Associations, has emphatically declared that only in co-operative marketing, and not in tariff juggling or federal handling of crop surpluses, lies the solution of the farmers' problems. In making this declaration, Mr. Bingham contrasted the courage and vision of Canadian farmers in organizing their own co-operative enterprises and solving their own problem out of their own strength and courage, with the attitude of U. S. farmers "faltering before their own picked remedy, kicking it aside, and running to Washington to ask the Great Father to guide their little feet in the path of prosperity." He urged them to emulate the example of Canadian farmers, give co-operation a trial on a large scale, not to be peasant-minded and ask somebody else to work out for them what they could do themselves, but to remain independent, resourceful American farmers.

HAD PIMPLES A WHOLE SUMMER

On Face and Neck. Lost Rest. Cuticura Healed.

"I had a breaking out of little, red pimples on my face and neck. The pimples festered and scaled over causing disfigurement. They itched and burned causing me to scratch, and the scratching caused eruptions. The irritation caused a lot of discomfort, and I lost my rest at night. I had the trouble a whole summer.

"I was treated without success. I read an advertisement for Cuticura Soap and Ointment and purchased some, and after using one box of Cuticura Soap I was completely healed." (Signed) Mrs. Forest Krick, R. R. 4, Rockford, Ohio.

Use Cuticura to clear your skin.
Sample Each Free by Mail. Address Canadian Depot: "Bismarck Ltd., Montreal." Price, Soap 5c, Ointment 25c and 50c. Telegram 25c.
Cuticura Shaving Stick 25c.

Sporting Duke Visits America

The Duke of Leinster, "hereditary king of Ireland," known on both sides of the Atlantic for his many sporting adventures, including one of racing an automobile from Aberdeen to London in 14½ hours, beating the train time and winning a wager of 600 pounds, has arrived in America under the cognomen of "E. Fitzgerald."

Don't Submit to Asthma. If you suffer without hope of breaking the chains which bind you, do not put off another day the purchase of Dr. J. D. Kellogg's Remedy. A trial will drive away all doubt as to its efficiency. The sure relief that comes will convince you more than anything that can be written. When help is so sure, why suffer? This matchless remedy is sold by dealers everywhere.

A good many of us sit down and try to think of some way of getting money. We don't try to think of some way of earning money.

Minard's Liniment for frost-bites

W. N. U. 1612

World Championship Dog Derby

Will Run From Calgary to the Great Divide and Back to Banff

A world championship dog derby to the "top of the world and back" will be run for the first time in the history of dog mushing at the Banff winter carnival this year. This course, from Calgary to the Great Divide and back to Banff, will be the longest dog race ever staged, according to records, and will exceed The Pas derby by 23 miles. The unique course lying over the most rugged scenery in North America will cover 173 miles.

THE DUTY OF A WOMAN

Is to Tell Her Ailing Sisters How New Health Can be Obtained

"The duty of one woman to another is to tell her. But the wrong advice is worse than no advice at all."

"That," says Mrs. Florence Glebe, 311 Royal Apts., Merrick Street, Hamilton, Ont., is why I feel it my duty to give women a little information concerning Dr. Williams' Pink Pills for Pale People. In the first place I may say that I am a graduate nurse of one of our Hamilton schools of nurses, having had a number of years' experience in nursing nervous and other cases of women.

"I may state that for the last three years I have not been feeling as I should. I have been under the care of our physician. He informed me that I would not improve until I took a change of climate. My symptoms were that I was tired out easily, pallid, short of breath. On going upstairs I had a rapid heart action and a weak feeling. If I entered a warm room I became hot and clammy. Black spots would float before my eyes, and I had sharp pains in my head. I did not sleep well at night and would toss around in bed. My appetite was fickle and poor. I tried a number of medicines that were advertised, with no good results. I began to feel despondent as when I met friends they would say, 'My, you look terrible.' I lost in weight and in spirits. My husband came home one evening asking, as he usually did, how I was feeling, and at my answer said, 'Well, try these,' and he handed me a box of Dr. Williams' Pink Pills. He said try them anyhow, they may help you. I did try them and they surely gave me quick results. By the time I had taken four boxes I can honestly say I felt like a different person. I could hardly realize it myself. People I met would say, 'Why, you look splendid. What have you been taking?' My reply would be that I had been taking Dr. Williams' Pink Pills, and their answer usually was, 'Well, they certainly have helped you.' 'I now sleep well and eat well. The terrible sharp pain has left my head. I do my work and feel toned up. My color has returned, and the pills have given me new vitality. I am deeply thankful that my husband brought me the first box of Dr. Williams' Pink Pills. I will gladly tell anyone what these pills did for me, and you have full permission to publish this statement in the hope that my experience may help someone else."

If you will send your name and address to The Dr. Williams' Medicine Co., Brockville, Ont., a little book, "Building Up the Blood," will be mailed you postpaid. This little book contains many useful health hints.

You can get these pills through any medicine dealer or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

WORLD HAPPENINGS BRIEFLY TOLD

A referendum on the prohibition of spirits is proposed in the speech from the throne, read at the formal opening of parliament at Oslo, Norway.

The North West Territories imported under permit last year 320 gallons of intoxicants. Permits issued totaled 154.

More British peerages became extinct in 1925 than in any twentieth century year except 1915, nine titles above the baronetcy rank passing.

Admission charges to the museums controlled by the city of Paris, including the carnavalet, have been raised from three to six cents.

Fully 2,000 persons lost their lives and thousands of families are homeless as the result of the recent floods which swept the state of Nayarit, Mexico.

The appointment of John Leslie as vice-president and comptroller of the Canadian Pacific Railway, is announced by E. W. Beatty, chairman and president.

With only five members of the Ottawa Unemployed Association having paid their monthly fee of 10 cents and therefore eligible to vote, the association voted itself out of existence by three votes to two.

SUNDAY SCHOOL LESSON

JANUARY 24

JESUS AND THE SAMARITAN WOMAN

Golden Text: With joy shall ye draw water out of the wells of salvation. Isaiah 12:3.
Lesson: John 4:1-42.
Devotional Reading: Isaiah 55:1-11.

Explanations and Comments

The Meeting of Jesus and the Woman of Samaria, verses 5-9.—Jerusalem did not receive its Lord, and Jesus was on His way to "His own country" of Galilee when He passed through Samaria. On nearing Sychar, being wearied, He sat down to rest on the curb of Jacob's Well, while His disciples went on to the village to buy food. A woman of Samaria came to draw water. "She was a very frequent type of person, who had drifted into a hopeless and disheveled way of living. She was like a waterlogged ship, not a total wreck, but incapable of movement, and needing both to be towed and to be steered into harbor." Jesus asked her for a drink. In surprise, she exclaimed, "How is it that thou, being a Jew, askest drink of me, who am a Samaritan woman?"—for Jews have no dealings with Samaritans, the Evangelist explains. At this time either it was permissible to trade with Samaritans (verse 8), or the disciples ignored the law against it; but no Jew would ask a favor of a Samaritan. See Light from Oriental Life.

"The Brahmin may give water to the Pariah and still retain his Brahminic pride and prejudice; he has transcended it only when he asks water from a Pariah. Racial pride and religious prejudice may be ignored when we minister to the alien or the heretic; they are transcended only when we ask the alien or the heretic to minister to us" (Bernard Lucas).

Russia's New Stamps

Commemorate Institution of Academy of Science at Petrograd

New stamps have just been issued by Russia in commemoration of the 20th anniversary of the institution of the Academy of Science at Petrograd. The design of the new stamp gives a view of the academy, with a portrait of Lomonosof, a famous Russian scientist, who was associated with the academy in its early days.

New stamps are also to be issued shortly with a portrait of the Russian radio expert, M. Popoff.

Aspires To Fiddling Honors
John Wilder, of Plymouth, Vermont, 80 years old, and the latest aspirant to fiddling championship honors, boasts of something more than 66 years of playing and his 100-year-old violin. He is an uncle of President Coolidge.

Still Enjoying Life at 84

Thanks To
That
Wonderful
Remedy

Mrs. F. H. Miller, 1843-11th Ave. East, Vancouver, B.C., writes:—"Five years ago my husband suffered terribly with severe attacks of palpitation of the heart and smothering spells, and two doctors stated that he could not possibly live six months.

A friend recommended Milburn's H. and N. Pills, with the result that my husband is still enjoying life at the age of 84 years.

He has improved so wonderfully that he can now climb the stairs without having those awful pains in his heart."

Put up only by The T. Milburn Co., Limited, Toronto, Ont.

Shears for cutting cloth were invented in Italy about 400 B.C., but it was two or three centuries later before scissors were made by fitting to the fingers.

Miller's Worm Powders attack worms in the stomach and intestines at once, and no worm can come in contact with them and live. They also correct the unhealthy conditions in the digestive organs that invite and encourage worms, setting up reactions that are most beneficial to the growth of the child. They have attested their power in hundreds of cases and at all times are thoroughly trustworthy.

Some people can't see what pleasure those who mind their own business find in living.

No child should be allowed to suffer an hour from worms when prompt relief can be got in a simple but strong remedy—Mother Graves' Worm Expeller.

Gerald: "Money talks."
Geraldine: "Anybody ever have a speaking acquaintance with yours?"

For
Headache

ASPIRIN

DOES NOT AFFECT THE HEART

Safe

Accept only "Bayer" package which contains proven directions. Handy "Bayer" boxes of 12 tablets Also bottles of 24 and 100—Druggists.

Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monocetate-salicylic acid of Salicylic Acid (Acetyl Salicylic Acid, "A. S. A."). While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

A STANDARD FOR LAND VALUES IS PLAN SUGGESTED

Brandon.—The United Farmers of Manitoba will be asked to request the Canadian council of agriculture to formulate and present to the Dominion Government a policy on the standardization of land values in the Dominion.

Following the presentation of the report on the work of the council, H. P. Nicholson, Dauphin, Man., asked J. W. Ward, secretary of the council, who presented the report, if the council had any policy on standardization of land values.

Mr. Nicholson drew the attention of the convention to the influx of immigrants expected to result from the new and low schedule of transportation rates from points in the British Isles to Canadian provinces. He warned that if any great numbers of immigrants did arrive, land prices would be likely to rise far above the producing value.

Mr. Ward replied that the Canadian council of agriculture did not have the matter before it in concrete form. He agreed that the matter was one requiring attention and suggested that a resolution be placed before the convention outlining a policy. This would have the effect of placing the subject before all the western conferences of farmers' organizations, and, if the policy met with their approval, before the Dominion Government, through the council.

President A. J. M. Poole, of the United Farmers of Manitoba, said that there was great need for action toward standardization of land values. Mr. Nicholson said he would prepare a resolution which will be placed before the convention.

Case Important To Automobile Dealers

Supreme Court Must Settle Disputed Point in Contract Sale

Victoria.—Leave to appeal to the Supreme Court of Canada on a matter of importance to Canadian automobile dealers was granted by the British Columbia appeal court here. The point at issue is whether a purchaser of an automobile or any other article purchased on a similar condition contract of sale can sue the vendor for any profit he makes on a re-sale where a car has been surrendered through failure to fulfill the terms of the contract.

E. C. Mayers made the application in the case of Solomon Chan vs. C. C. Motors of Vancouver. The judge in the lower court held that a purchaser who had failed in his contract and surrendered the article purchased, was entitled to sue the vendor for any balance over the contract price secured on a re-sale. The defendant carried the case to the appeal court and by a majority of one the appeal court upheld decision of the court below.

Want Alberta Coal

Toronto.—Feminine voices have been raised in protest against Mayor Thomas Foster and his colleagues on the city council. The disapproval was voiced at the meeting of local council of women, and arose over the action of the city fathers in buying two thousand tons of Pocahontas coal for civic sale. The women were strongly of the opinion that Alberta coal, "this splendid coal," should have been bought.

Butter Price Lower At Coast

Vancouver.—With the arrival here from New Zealand of 8,000 boxes of butter, or approximately 448,000 pounds, prices declined here 2 to 3 cents a pound after having been steady at 48 cents a pound wholesale for several months. Most of the New Zealand butter, it is said, is for local consumption, although some of it will find a market in Eastern Canada.

Studying Labor Conditions

New York.—Lady Cynthia Moseley, and her husband, Oswald Moseley, arrived on the Majestic to make a study of labor and industrial conditions in this country. Lady Cynthia, daughter of the late Marquis Curzon, said she and her husband would stand for parliament at the next British election.

W. N. U. 1612

Saskatchewan's Sound Economic Position

Premier Dunning in Budget Speech Says Financial Conditions Improved

Regina, Sask.—Declaring that Saskatchewan farmers would receive nearly \$100,000,000 more from the sale of their surplus farm products in 1925 than in 1924, Premier Dunning, in his tenth budget speech in the legislature here, stated that general economic conditions in Saskatchewan were better now than they had been at any period since the Great War. At the same time he urged the need for continued care as well as confidence in the future.

The government did not propose to impose any new taxation or increase any existing taxation.

Saskatchewan closed the fiscal year ending April 30, 1925, with a cash deficit of \$166,388, but this was covered many times in monies owing to the province under the public revenue tax, the wild lands tax, the old supplementary revenue tax and unpaid succession duties aggregating \$1,939,143, he said. These arrears had been reduced by a little over \$200,000 as compared with the previous year.

Mr. Dunning indicated the government was watching the operation of a gasoline tax in other provinces and declared that investigation made by the government showed that a three cent tax of three cents a gallon on gasoline would not permit of motor license fees being reduced by more than \$5.

British Mine Survey Nearing Completion

Chairman of Royal Commission Summarizes Proposals to Operators

London.—The royal commission which is making a survey of the coal industry entered the final stages of its task when it heard the proposals of the operators, as explained by Evan Williams, president of the national board for the coal mining industry. These proposals were summarized by Sir Herbert Samuel, chairman of the commission, as follows:

The men to work an additional hour without extra remuneration; wages to be reduced in certain districts; the owners to effect a reduction of 10 per cent. on cost other than wages; railway rates to be reduced; the immediate temporary dismissal of 100,000 men.

German Chancellor Forms New Cabinet

Dr. Luther Was Given Mandate By Von Hindenburg

Berlin.—President Von Hindenburg has commissioned Chancellor Luther to form another cabinet.

Dr. Luther was given the mandate after both Erich Koch, the Democratic leader, and former Chancellor Erenbach of the Centre Party, had informed the president that a "big coalition" government was impossible.

When Dr. Luther's cabinet resigned early in December, following the signing of the Locarno treaties, it was announced the resignation was to leave the way clear for the formation of such a coalition to carry out the Locarno policies.

Women Helping the Blind

Edmonton, Alta.—The Canadian National Institute for the Blind has two teachers of the blind stationed in Alberta. These are Miss Fisher, of Edmonton, and Miss McKellar, of Calgary. Both are blind, but at one time had their sight, a fact which is of immense value to them. They travel over their fields, teaching and advising, and doing an enormous amount of work in bringing a new vision of life to those who are handicapped.

Ancient Life of America

Minneapolis.—Evidence that life existed in Minnesota 200,000,000 years ago, is said to have been discovered by Professor Gruner, of the University of Minnesota. The evidence, consisting of microscopic forms of plant life, which ante-dated animal existence, was found imbedded in iron rock foundations.

Would Abolish Tax

Winnipeg.—Abolition of all stamp taxes on commercial documents will be urged upon the Dominion Government by the Winnipeg board of trade.

NO DATE FIXED AS YET FOR THE EMPIRE PARLEY

London.—It is understood that nothing definite has developed yet as to the date of the proposed imperial conference here. The governments of the various dominions have replied to the British Government's inquiry as to what time would suit their representatives to come to London to discuss imperial matters with representatives of the Imperial Government, but further communications will have to pass between the Home Government and the overseas administrations before any further decision can be reached.

A suggestion has been made that ference here. The governments of the but there may be elections pending or parliaments in session at that month and it is thought October, or perhaps a later month, might be considered as more likely to suit the convenience of all concerned.

Wants Million New Settlers

Homeseekers Greatest Need of B.C. Says Premier Oliver

Vancouver.—What British Columbia needs is a million new people imbued with the industry and thrift possessed by the early pioneers of Ontario, said Premier John Oliver during the course of an address given at the annual dinner of the Associated Property Owners. "The greatest need of this province is homeseekers and homebuilders."

Industry had increased sixfold in British Columbia during the last ten years, he continued. There was no place on the face of the earth where 550,000 people produced as great an aggregate of wealth as in British Columbia.

It would be difficult to convince him that taxation was keeping British Columbia back when people were paying into the coffers of the province a million a month for luxuries that caused them more harm than good.

British Families Coming

Over Six Hundred Families Are Waiting to Sail to Canada in the Spring

London.—Over six hundred British families are waiting to sail for Canada in the spring, having been accepted by the Canadian director of migration as suitable settlers, under the scheme to establish 3,000 families in the Dominion, according to the overseas settlement department of the office of the secretary of state for the dominions.

The Canadian authorities in London confidently anticipate that 300 more British families will be ready to leave for Canada by the middle of June next.

These 900 or more families, it is stated, will account for nearly half the number of farms which the Canadian Government has available for settlement.

Wins Wheat Championship

Seager Wheeler Captures Farm Crops Trophy at Saskatchewan Seed Fair

Saskatoon.—Seager Wheeler, of Rosthern, won the championship in wheat and the farm crops trophy at the provincial seed fair at the university here, while William Darnborough, of Laura, won the oats championship and T. Eaton Cup and incidentally took the Darnborough Cup for sweet clover.

Each of the champions came first in other classes, while the International Harvester Company Challenge Shield was won by the Laura Agricultural Society, with 484 points; Moose Jaw, for seven years champion, coming second, with 389.

Cold in Italy

Rome.—"Sunny Italy" is far from sunny. From the foothills of the Alps to Naples, the country is blanketed in snow under grey skies and shivering in the grip of a cold wave, with the mercury showing freezing temperatures everywhere.

Many Divorce Cases

Ottawa.—One hundred and twelve applications for divorce are before parliament this session. One hundred are from Ontario, eleven from Quebec and one from British Columbia.

Urge Federal Aid For Coal Shipments

Alberta Coal Operators Would Send Half Million Tons to Ontario

Calgary.—A resolution urging the Federal Government to assist with the immediate shipment of half a million tons of coal to the Ontario market and the recommendation that the Alberta Government appoint a coal council for the province to assist in expanding the existing coal market featured a general meeting of Alberta coal operators called by the coal section of the Edmonton board of trade which was held here.

Toronto.—Hon. Charles McRae, Ontario minister of mines, stated that word had been received that the 7,500 tons of Alberta coal forming the balance of the 25,000 tons summer shipment by the C.N.R., would be moved at once. It is expected it will all be at the respective destination points in Ontario by the first week in March. The mines department had received no further communication as to sending Alberta coal in excess of the quantity about to be delivered.

Want Four-Day Fair

Prince Albert Delegates to Present Request at Regina Convention

Prince Albert, Sask.—If the arguments of the representatives of the Prince Albert Agricultural Society delegates to the annual convention of the Western Canada Fair Association in Regina on February 2 and 3 are heard and approved, this city will return to a four-day exhibition this year instead of three days.

This was the unanimous decision of the directors of the society at their meeting. The two delegates named to the Regina convention, C. C. Gamble and J. P. Curror, were instructed to ask for fair dates immediately following those given to Regina so that the local society would be in a position to secure good exhibits from the various government departments.

Russia To Participate

But Russia-Swiss Relations Must Be Adjusted Meanwhile

Berlin.—Soviet Russia will participate in the preliminary disarmament conference at Geneva, it is learned authoritatively, on condition that Russia-Swiss relations are adjusted meanwhile. Soviet participation would mark the first Russian co-operation with the league.

France and Great Britain are pressing Switzerland to come to terms with Moscow. Russia's decision to come to Geneva, even on conditions, represents a defeat for the extreme Communists of Moscow, who, under the leadership of Gregory Zinoviev, suffered a reverse in the recent Communist elections. The moderates appear to be in power in Moscow now, although the theory of Communism is not affected thereby.

Marketing Agreement Becomes Operative

Agreement Entered Into Between Canadian Millers and Wheat Producers

Winnipeg.—The pact struck between Canadian millers and the Canadian Co-operative Wheat Producers for the marketing of Canada's wheat crop will become operative within a week. D. L. Smith, sales manager of the producers' agency has announced. Only part of this year's crop will be handled through this medium, he indicated. An agreement of mutual advantage to both interests was entered into as a result of negotiations which have been progressing several months.

Receives New Appointment

London.—Percy Hunter, a journalist and former commissioner of immigration for Australia in London, has been appointed general manager of the Pacific cable board. His salary, according to the Daily Express, will be £2,000 a year.

Explosion Kills Miners

Wilburton, Okla.—Most of the 105 men working in the Degman-McConnell mine, three miles west of here, are believed to have been instantly killed in a terrific explosion that wrecked the main shaft and entombed them.

London schools housed 797,378 children last year.

WILL ESTABLISH AGRICULTURAL RESEARCH FUND

Regina.—Establishment of the "Saskatchewan Agricultural Research Foundation," enabled by payment to the province of the \$284,200 surplus on operations of the Canada war-time wheat board, was approved by the legislature on recommendation of the committee on agriculture.

Interest on the principal sum will be utilized to defray expenses of the foundation, which is designed to deal with the following: For scientific research of plant and animal diseases and soil problems; for investigation of agricultural marketing; to provide scholarships for promising students from Saskatchewan to the College of Agriculture and for graduates of the agricultural college.

The committee's recommendation consolidates the suggestions previously made by Premier Dunning, Dean Rutherford, Hon. C. M. Hamilton, minister of agriculture, and the Saskatchewan Grain Growers' Association.

Start Campaign For Fair Trading Policy

Retail Merchants Ask Guarantee of Reasonable Profit on Trade Marked Nationally Advertised Goods

Toronto.—A campaign to establish a fair trading policy between the manufacturer, wholesaler and retailer which will guarantee to the latter a reasonable margin of profit on trade marked nationally advertised standard goods was launched here under the auspices of the Retail Merchants' Association of Canada.

The campaign is being conducted by the association throughout Canada.

The campaign will be directed to four lines of trade; grocers, auto tires and accessories, implement dealers, and booksellers.

The request also has been made by hardware, shoe and clothing dealers to take action along the same lines for them.

No Shortage Of Rubber

Substantial Increase in Production Estimated For This Year

London.—Referring to the near approach of the annual surveys of the rubber situation by leading London rubber firms, the Daily Mail says it is believed some of them will put the world's consumption for 1925 at 560,999 tons and estimate the production for 1926 as 630,000 tons. On this assumption, says the Daily Mail, there is room for a 12½ per cent. increase in consumption this year before production is overtaken. This estimate, generally speaking, says the newspaper, seems to indicate that, although prices still may give handsome profits to producing companies, there will be no serious shortage of rubber. A Reuters dispatch from Batavia says estimates show an increase of 50 per cent. in the native rubber production for 1925.

Develop Riding Skill

Challenge Cup Is Offered For Military Riding Competition

Toronto.—With the object of promoting interest among military men in riding skill, Alfred Rogers, Sr., has donated a challenge cup to be awarded to the best competitor. The competition will be open to officers and ex-officers in all branches of the service. Uniforms must be worn and the only marks to be scored will be for the performance of the mounts.

Contests will be held at the Toronto Hunt, the final in June.

Russian Cattle Perish

Penza, Russia.—Cattle to the number of 19,000, or 56 per cent. of the total cattle in Penza province, and 11,000 horses, 48 per cent. of the total, have perished for lack of forage and from disease.

To Chase Run Runners

Chicago.—Twelve vessels and two seaplanes will be based at Chicago by the United States coastguard next spring to clear Lake Michigan of run runners.

AROUND THE TOWN

E. L. St. Clair and Lee Persinger
are visitors to Calgary this week.

Mrs. Fitch of Edmonton is visit-
ing her parents, Mr. and Mrs. Gibbs.

Miss Lois Clemens and Miss Van
Manhard spent the week-end in
Calgary.

Miss Luella Kennedy and her
sister are visiting friends here this
week.

Mr. and Mrs. Scrutton were
business visitors to Calgary on
Tuesday.

Milton May of Alsask is visiting
with his parents, Mr. and Mrs. G.
A. May.

A large circle of friends will re-
gret to hear of the illness of Miss
Thelma Sexsmith.

For a few days last week Miss
Isobel McCorkindale of Australia
was the guest of Mrs. A. Reiber.

Isaac Vipond left Tuesday for
Vermilion, where he was suddenly
called through the death of his
daughter.

Mr. and Mrs. Elmer Mack and
Mr. and Mrs. Oscar Lind of Nan-
ton were visiting relatives in Dids-
bury on Sunday.

Mr. and Mrs. W. Scheidt, W. H.
Davies, Dave Irwin and Geo. Metz
are among those attending the U.
F.A. convention in Calgary this
week.

Mrs. Hamper, Mrs. Guy and
Mrs. Leadbetter attended the in-
stallation of officers and banquet
by Unity Chapter, O.E.S., at Cal-
gary Monday night.

Divine service will be held at St.
Cyprian's on Sunday afternoon,
January 21st, at three o'clock.
Until further notice services will be
held at the church on the second
Sunday of the month in the morn-
ing and on the fourth Sunday in
the afternoon.

Erwin Bartz, west of town, has
received a handsome radio set from
the W. G. Leisemer hardware store
as the prize in the contest for the
"lucky key." This contest ran for
several months and has excited
considerable interest.

A very enjoyable invitation party
was given by the ladies of St. Cyp-
rian's on Wednesday night in the
Oddfellows' hall there being about
forty people present. Mrs. Lead-
better and Mr. Morgan won first
prizes at whist. Afterwards the
party sat down to a delightful little
supper.

Due to an oversight the following
item was omitted from a previous
issue. It may, however, interest
many to learn that the Didsbury
Game Protective Association was
awarded second prize of \$100 in
the crow and magpie contest last
year. The number of points gain-
ed was 45,000, more than double
the number of the previous year.

Rugby Notes

The Rugby Institute met at the
home of Mrs. Geo. Harris, on
Thursday, January 7th, with twen-
ty members present. Mrs. O. R.
Swingle gave an interesting paper
on "Agriculture," Mrs. Hughes,
Sr., spoke briefly on "The Value
of Contest" and urged the mem-
bers to make use of competition in
their organization. At the com-
pletion of the business discussion,
the hostess served a tempting lunch.

Mrs. O. O. Swingle has been de-
tained at the home of her parents
on account of the illness of her
mother.

Mrs. Ed. Parker has gone to
Calgary to undergo an operation.
